

Hola!!

I'm Serakiel, and I'm proudly from Mexico City. Growing up here has been fantastic, surrounded by the city's beauty and all the amazing things it has. There are so many art museums and big parks to explore.

In my job, I work in hospice care, which means I help people who are very sick and might not have much time left. It can be tough, but it's also really meaningful because I get to support them in their final journey. I'm a person of faith, and I believe life is like a special mission given to us. I understand that without faith, the idea of death can be scary.

Outside of work, I'm super into astronomy. I love looking at the stars at night and finding comfort in the moon, which kind of symbolizes faith for me. At home, I have a telescope that lets me zoom in on planets far away, and it's like having a front-row seat to the wonders of our solar system that the creator has created.
