

“As Salaam Alaykum!!”

I'm Uriy, a proud resident of Islamabad, Pakistan, where I've spent my entire life. By profession, I'm an electrician, ensuring that people in our community have a reliable and uninterrupted power supply. Beyond my work, I find profound joy in my faith and love for Allah. In every aspect of my life, I am constantly praying for guidance and seeking divine help.

Recently, I found myself in the midst of an urgent situation when the generator at the local hospital malfunctioned. This emergency required immediate attention as any downtime could seriously impact the well-being of those relying on the hospital's services. Utilizing my knowledge and expertise in power systems, I swiftly intervened and resolved the issue, ensuring that the hospital could continue its vital operations without disruption.

When I'm not immersed in work, I love taking a break to spend quality time with my family. Our favorite spot is the delightful Fiest Park in Karachi. There, amidst the serene beauty of nature, we appreciate the simple joys and gifts that the Almighty has bestowed upon us. It's a cherished time filled with laughter, bonding, and an opportunity to revel in the marvels of our surroundings.

“Allah Hafiz”
